Butler Breeder's Invitational

Registered Texas Longhorn Cattle

September 2, 2017

Dear Texas Longhorn Breeders,

Welcome to the 2017 Butler Breeder's Invitational. This will be our 20th anniversary sale. Everyone is extremely excited and looking forward to celebrating this momentous occasion. Special preparations are being made to ensure this sale will be one to be remembered! Each year, the Butler Breeder's Invitational is committed to offering not only the finest in straight Butler cattle, but the finest in Texas Longhorns as well. This commitment is shared by our consignors and we are proud to be associated with them. We encourage you to contact them if you desire additional information on any of the sale lots. As Butler Texas Longhorn breeders, our commitment is two-fold. To the cattle, our commitment is to preserve and promote them to the best of our ability. To the people, it is to treat everyone with respect and welcome you as a guest in our own home.

Once again, our sale offering includes something for everyone. This year will again feature a large selection of heifers. These are extremely high quality with unlimited potential, as well as proven producers that can make a positive impact on any program. Whether your interest is in the history of the bloodline and the continuation of the last viable pure family of Texas Longhorns that still survives or adding Butler genetics to blend programs as the essential key ingredient for superior results, top breeders have long recognized that the best Texas Longhorns in the industry all have one thing in common: Butler Genetics.

An added feature this year will be Internet bidding for those unable to attend the sale. The sale will be webcast by www.CattleInMotion.com. There will be bidding on the webcast. If you are interested in using this service, please visit the Cattle in Motion website for more information.

We invite you to return with us to Lockhart for the great cattle and fun times the Butler Breeder's Invitational has come to represent. As always, for everyone associated with the Butler Breeder's Invitational, we thank you for your interest and your participation!

Kaso Kety

Michael McLeod

BUTLER FAMILY HEIRLOOMS

Donated by: Rebecca Heston

It was the 1960's in South Texas. Milby Butler was raising Texas Longhorns; his friend, Price Daniels, was Governor of the Great State; the Governor's brother was in-state to direct the filming of *The Alamo*, an epic movie starring none other than John Wayne; and Miss John Wayne, one of Milby Butler's Texas Longhorns, was about to make her movie debut. What an eclectic group of companions! During this time, a set of 8 glasses, elegantly engraved with Milby's initials, arrived in the Butler household in League City. In celebration of the 20th Anniversary of the Butler Breeder's Invitational, Rebecca Heston, Milby's granddaughter, has graciously donated these glasses for auction.

DALGOOD'S PRECIOUS GEM

Consignor: Dalgood Longhorns - Malcolm & Connie Goodman

PH No. 401 TLBAA No. C293584 Born: 1/1/14

Color: White with some red spots on sides

Bangs Vaccinated (OCV): Y

Breeding Information: Exposed to Dalgood's Geronimo from 11/1/16 to 5/20/17. Exposed to Dalgood's Jacob from 5/20/17 to 8/1/17.

COMMENTS: One of our special 3 year olds for the 20th anniversary sale. Precious Gem is out of a 76-inch TTT horn cow; see reference photo. These explosive genetics result from coupling Delta Rockette with George W and Droopy's Big Base. Note that FM Graves 102 (through both Delta Rockette and Mrs Delicious) is on the top and bottom. Exposed to our flashy black speckled young sire, Dalgood's Geronimo, out of Dalgood's Tiger Lilly who sells as Lot 49.

PH No. 1/4 TLBAA No. C290229 Born: 1/26/14

Color: White with brown spots

Bangs Vaccinated (OCV): Y

Breeding Information: Exposed to Trinity R3 from 1/10/17 to 8/31/17.

COMMENTS: A fantastic Trinity daughter out of Little Ace Sassey Georgette. Sassey Georgette was a high seller at the Butler Breeder's Invitational Sale as a heifer and we were fortunate to buy her back several years later. She has quickly become one of our best producers. ChocChip has tremendous lateral horn and flashy color. In a twist of fate, she sells safe in calf to her sire, Trinity, which should make for a very interesting mating.

PH No. 417 TLBAA No. C293588 Born: 3/11/14
 Color: White with red and black specks and spots on sides

 Breeding Information: Exposed to Dalgood's Geronimo from 6/1/16 to 5/20/17. Exposed to Buckaroo Chex from 5/20/17 to 8/1/17.

COMMENTS: Bumblebee, out of the 70-inch blue roan Dirt Dobber, is a 3-year-old and one of our favorite young cows. This year's 20th anniversary sale requested young animals, so Bumblebee is one of three young females that we put in. Her unusual "rose" colored horn, tri-colored spots and freckled face create significant eye appeal. Her genetics combine Delta Rockette on the top and bottom sides.

May the Future of the Butler Bloodline Continue

Pure Butler Texas Longhorn

A pure Butler Texas Longhorn is a longhorn whose genetics trace back to only cattle originating in the herd of Mr. Milby Butler. This is a very simple statement to make but determining which cattle do indeed trace fully to the Butler herd has been far more complicated.

There are seven accepted subfamilies within the Butler bloodline. They are the herds of the Partlow family, F.M. Blackie Graves, the Meshell family, Ruel Sanders, Luman Holman, Forrest Lepper, and Virgil Shinn. Over the years all of these herds, except those of Lepper and Shinn, contained longhorns of non-Butler breeding in addition to their straight Butler animals. There are also Butler cattle which do not fall into these subfamilies. These would be found in herds such as J.W. Isaacs, the Wright family, and Pauline Russell. There also existed a group of animals which lived within these subfamilies and throughout the breed that were claimed to be straight Butler but which, as a result of paperwork mistakes, carried pedigrees that did not reflect their true genetic heritage. To determine which cattle did or did not trace fully to the original Butler herd, extensive and exhaustive research was done. Countless numbers of conversations and interviews with scores of people were conducted. Thousands of photos were viewed or taken. Pedigrees, personal notes, and records were examined. We saw everyone and everything that had a connection to Butler cattle. We heard facts, legends, lore,

lies, theories, rumors, secrets, innuendo, and accusations. We have the testimony of the men that registered these cattle. It was concluded that there were in fact quite a few that were unquestionably straight Butler, many of which were some of Milby's very best. If they were truly 100% Butler, shouldn't they too be included in the bloodline? We said yes. In the end, one factor alone guaranteed acceptance as straight Butler: the brands. Unlike paperwork, which becomes separated from the animal, brands stay with the animal for life. And as any good cowman knows, brands tell a cow's life story. If the brands identified it as Butler, then it was Butler. A Butler brand verified its true ancestry and simply reflected mistakes made at the time of registration, usually when the cattle were already mature. Anyone understanding the pitfalls and limitations of beginning a registry for a breed as diverse and old as the Texas longhorn can see how a breed that historically had survived for so long on their own, would have a family tree that would be hard to recreate and document. Many cattle regrettably were rejected because they did not have the proper brands to serve as irrefutable proof. What remains is a group of cattle which we can stand behind and know in our hearts are among the purest Butler Longhorns available.

Some would ask who are we to make such decisions and what gives us the right to do so. No one gave us the right; we stepped up and seized it. We are the Butler Breeders. We have always been

Butler breeders. We bred and promoted straight Butler cattle while Texas Longhorn industry psychics and consultants predicted that pure Butler cattle were a fad that would not last; that was in the 1980's. We're still raising pure Butler cattle. We did the research and we did our homework. Your sale hosts alone have over 70 years of commitment to this bloodline. Along with the help of other Butler breeders respected for their dedication to and knowledge of this bloodline, the Butler Breeder's Invitational screening committee pledges to offer only the best representatives possible. This includes the rejection of animals that do not conform to the genetic and phenotypic criteria required. Simply having papers that reflect a straight Butler pedigree does not guarantee acceptance to this sale. Unfortunately, breeders that disagree with our standards may suggest impure motivation on our part. But for us, this is about the cattle, not about people. Our goal is to raise the finest, 100% genetically pure Butler Texas Longhorns possible so as to preserve this magnificent bloodline for the future. Butler cattle have been our love and our lives. We hope Mr. Butler would be proud.
