Butler Breeder's Invitational

Registered Texas Longhorn Cattle

September 4, 2021

Dear Texas Longhorn Breeders,

Welcome to the 2021 Butler Breeder's Invitational. This will be our 24th annual sale. Each year, the Butler Breeder's Invitational is committed to offering not only the finest in straight Butler cattle, but the finest in Texas Longhorns as well. This commitment is shared by our consignors and we are proud to be associated with them. We encourage you to contact them if you desire additional information on any of the sale lots. As Butler Texas Longhorn breeders, our commitment is two-fold. To the cattle, our commitment is to preserve and promote them to the best of our ability. To the people, it is to treat everyone with respect and welcome you as a guest in our own home.

This year will again feature a large selection of heifers. These are extremely high quality with unlimited potential. There are also proven producers that can make a positive impact on any program. Whether your interest is in the history of the bloodline and the continuation of the last viable pure family of Texas Longhorns that still survives or adding Butler genetics to blend programs as the essential key ingredient for superior results, top breeders have long recognized that the best Texas Longhorns in the industry all have one thing in common: Butler Genetics.

An added feature this year will be Internet bidding for those unable to attend the sale. The sale will be webcast by www.hiredhandlive.com. There will be bidding on the webcast. If you are interested in using this service, please visit the Hired Hand website for more information.

We invite you to return with us to Lockhart for the great cattle and fun times the Butler Breeder's Invitational has come to represent. As always, for everyone associated with the Butler Breeder's Invitational, we thank you for your interest and your participation!

Kaso Kety

Michael McLeod

Consignor: Westfarms - Matt & Dale Westmoreland

PH No. 801 TLBAA No. C316277 Born: 1/16/18

Color: Red side white lineback

Bangs Vaccinated (OCV): Y

Breeding Information: Exposed to WF Oklahoma Cowboy 321 from 5/1/21 to 9/1/21.

COMMENTS: This is a nice young female. Her dam was one of our best producers. And this young lady is developing into quite the cow herself. She raised a real nice calf for us this year and is bred to Oklahoma Cowboy who sells as Lot 37. We think you'll like her.

PH No. 51/8 TLBAA No. C317425 Born: 3/4/18

Color: Red body with white underline, topline, head, neck, red nose and ears

Bangs Vaccinated (OCV): Y

Breeding Information: Bull calf at side born 4/6/21 sired by RJF JR Lucky 9/10. Exposed to RJF JR Lucky 9/10 from 4/6/21 to 8/18/21.

COMMENTS: This is a colorful young cow with her first calf at side by RJF JR Lucky 9/10, a brindle LLL Lucky son. She's a very attentive mother with her calf and seems to have a very good disposition. Going back to Farlap Chex and BL Rocket with R3 Santana twice in her pedigree and George W on bottom. My Butler bull broke his foot and so I'm using Lucky (not Butler) who is having some of our best heifers with extremely good horn and color. She should be bred back to him and I hope will have you one of his great heifers. If so, she will probably pay for her mom for you. I've liked this heifer from the time she was born.

Dalgood's Samantha

Consignor: Dalgood Longhorns - Malcolm & Connie Goodman

PH No. 813 TLBAA No. C329480 Born: 4/1/18
 Color: White with red spots on sides **Buyer: Mark Christenson**
 Bangs Vaccinated (OCV): Y **Price: \$2,000.**
 Breeding Information: Bull calf at side born 6/26/21 sired by LAER High Class. Exposed to WF Conquistador from 5/31/21 to 8/5/21.

COMMENTS: Pretty 3-year old with large base horn that is black-tipped. She is out of Buckaroo, a patchy brindle bull, and you can see some black on her tail and front legs, so she carries the brindle and tricolor genetics if you like color. Her dam is a Rocky daughter, so Samantha also carries the colorful genetics of the famous Delta Rockette. She should be bred to our young Trinity son, LAER High Class, co-owned with Kaso Kety and Judi & Paul Sellers.

Breeding Information: Not exposed.

COMMENTS: WA Dayton's Gypsy is as beautiful as her dam the day I picked her out as a calf. Her sire is Dayton's J Chex 037, a Farlap Chex son bred by Bob Loomis & out of Ace's MS Dayton J, one of his very best Butler females. Gypsy's dam is our Butler Futurity winning SH Bold Bandita, whose maternal line goes back to Bold Ruler & Miss Blue Denim. We think she has it all - pedigree, great conformation & explosive color which continues to develop. We are proud to offer this heifer.

Color: White body with red spots on shoulders

COMMENTS: Oklahoma Cowboy has been a tremendous bull for us. His pedigree is power packed. His sire, dam, and granddam are all over 80" TTT. He has a great disposition and is an easy keeper. But with a mature bull, it's all about the production. And he delivers every year. We put a daughter of his in the sale last year that represented him very well. Maurice Ladnier used him and got some great daughters. I can't say enough; he is a great bull.

PH No. 25/2 TLBAA No. C281922 Born: 3/18/12

Bangs Vaccinated (OCV): Y

Breeding Information: Heifer calf at side born 3/21/21 sired by RJF JR Lucky. Exposed to RJF JR Lucky from 3/21/21 to 8/18/21.

COMMENTS: A pretty pair! Straight Butler cow and a blend heifer calf by RJF JR Lucky, a LLL Lucky brindle bull who produces a lot of our best heifers. Because my Butler bull broke his foot, I was forced to use a blend and picked one of my best producers for color and horn. This is the 6th calf and 6th heifer for SH Fancy Fireworks. Her red is a vibrant shade and eye catching and Fancy Fireworks is a very affectionate mom. She has a lot of well-known Butlers in her pedigree including R3 Santana & George W. RG 92. We know that some of our best horns can come from crossing a blend with a Butler and this calf will be one to watch.

Pure Butler Texas Longhorn

A pure Butler Texas Longhorn is a longhorn whose genetics trace back to only cattle originating in the herd of Mr. Milby Butler. This is a very simple statement to make but determining which cattle do indeed trace fully to the Butler herd has been far more complicated.

There are seven accepted subfamilies within the Butler bloodline. They are the herds of the Partlow family, F.M. Blackie Graves, the Meshell family, Ruel Sanders, Luman Holman, Forrest Lepper, and Virgil Shinn. Over the years all of these herds, except those of Lepper and Shinn, contained longhorns of non-Butler breeding in addition to their straight Butler animals. There are also Butler cattle which do not fall into these subfamilies. These would be found in herds such as J.W. Isaacs, the Wright family, and Pauline Russell. There also existed a group of animals which lived within these subfamilies and throughout the breed that were claimed to be straight Butler but which, as a result of paperwork mistakes, carried pedigrees that did not reflect their true genetic heritage. To determine which cattle did or did not trace fully to the original Butler herd, extensive and exhaustive research was done. Countless numbers of conversations and interviews with scores of people were conducted. Thousands of photos were viewed or taken. Pedigrees, personal notes, and records were examined. We saw everyone and everything that had a connection to Butler cattle. We heard facts, legends, lore,

lies, theories, rumors, secrets, innuendo, and accusations. We have the testimony of the men that registered these cattle. It was concluded that there were in fact quite a few that were unquestionably straight Butler, many of which were some of Milby's very best. If they were truly 100% Butler, shouldn't they too be included in the bloodline? We said yes. In the end, one factor alone guaranteed acceptance as straight Butler: the brands. Unlike paperwork, which becomes separated from the animal, brands stay with the animal for life. And as any good cowman knows, brands tell a cow's life story. If the brands identified it as Butler, then it was Butler. A Butler brand verified its true ancestry and simply reflected mistakes made at the time of registration, usually when the cattle were already mature. Anyone understanding the pitfalls and limitations of beginning a registry for a breed as diverse and old as the Texas longhorn can see how a breed that historically had survived for so long on their own, would have a family tree that would be hard to recreate and document. Many cattle regrettably were rejected because they did not have the proper brands to serve as irrefutable proof. What remains is a group of cattle which we can stand behind and know in our hearts are among the purest Butler Longhorns available.

Some would ask who are we to make such decisions and what gives us the right to do so. No one gave us the right; we stepped up and seized it. We are the Butler Breeders. We have always been

Butler breeders. We bred and promoted straight Butler cattle while Texas Longhorn industry psychics and consultants predicted that pure Butler cattle were a fad that would not last; that was in the 1980's. We're still raising pure Butler cattle. We did the research and we did our homework. Your sale hosts alone have over 75 years of commitment to this bloodline. Along with the help of other Butler breeders respected for their dedication to and knowledge of this bloodline, the Butler Breeder's Invitational screening committee pledges to offer only the best representatives possible. This includes the rejection of animals that do not conform to the genetic and phenotypic criteria required. Simply having papers that reflect a straight Butler pedigree does not guarantee acceptance to this sale. Unfortunately, breeders that disagree with our standards may suggest impure motivation on our part. But for us, this is about the cattle, not about people. Our goal is to raise the finest, 100% genetically pure Butler Texas Longhorns possible so as to preserve this magnificent bloodline for the future. Butler cattle have been our love and our lives. We hope Mr. Butler would be proud.
